Lincoln's Very Memory Exerts Magnetic Attractions for Many

There's a little bookshop in Chicago that specializes in books and documents touching the life of Abraham Lincoln. Probably no finer or more complete collection exists anywhere outside our greatest libraries.

Gathered in this shop are not only all the leading biographies of Lincoln, but rare copies or originals of his papers, a bookcase that purports to contain all the works which were in Loncoln's own library, and other evidences of the life he led.

The place is a mecca for a strange band of men—the Lincoln followers. Fired by intense enthusiasm and devotion, they frequent the shop with amazing regularity. Doctors, businessmen, lawyers, professors, some of the best known historians of Lincoln, streetcar conductors, workingmen, all are drawn there by the powerful Lincoln magic.

Many of these men are ardent collectors of Lincolniana. A good number meet in the shop informally from time to time, making it a sort of market place for an exchange of stories and ideas about the great Civil War president. These same admirers assemble more formally in other surroundings to pursue the infinite detail of his life and ways.

The ordinary folk who visit the store underline even more strikingly the dedication of countless modern day Americans to Lincoln's memory. There's the case of the streetcar conductor who gave the shop $1 a week for long months, taking home books and other fragments of the Lincoln story whenever his payments had accumulated sufficiently to meet the cost. A lot of instances of similar patient, plodding devotion have been recorded.

None of these people. either distinguished or ordinary. ever saw Lincoln alive. They know nothing of him but what they have read in books. What inspires this deep feeling for a man who has now been dead 85 years?

Millions of words have been set down in the effort to catch the secret of his magnetism. No one unversed in the fascinating richness of his life could dare attempt a definite answer to this puzzle.

But two elements do stand out as likely keys to his enduring appeal among the mass of men. In him there was a wonderful balance of statesman and politician. His high-minded idealism blended with hard-headed political realism in remarkable combination. The mixture cast him in the mold of a great leader at a moment when the nation desperately needed that greatness.

But, rare as it is, that blend could not alone account for his continuing hold on the hearts of men. The other key is perhaps the big one. Lincoln was a man of compassion. He had an intense love of his fellow man. And he conveyed that feeling through his personal humbleness that marked even his great hours.

Somehow, even in death, he communicates that love for others, Lincoln was everybody's president. Ordinary men do not forget the example of such a life, nor the humility that moved side by side with his greatness. Nothing is more natural than that they should respond to that example—even though the man who set it lives only in memory.

Pilgrimmages to Lincoln's Tomb Over Three Day Period

Springfield, Ill., Feb. 11—(AP)—Five pilgrimages to the tomb where Abraham Lincoln is buried in this shrine city will mark a three-day observance of his birth 141 years ago.

Representatives of President Truman, veterans organizations and civic and political groups will join with Springfield in paying homage to the civil war president.

Tributes will center at the tomb, the two-story white homestead where Lincoln lived before becoming president, and New Salem where he lived and worked as a young man.

Stassen To Speak

Commemorations open tonight when Harold E. Stassen, University of Pennsylvania president, will address the Illinois Young Republicans annual Lincoln Day dinner.

Pilgrimage to the tomb in Oak Ridge cemetery will be made tomorrow by the Young Republicans, the American Legion, Veterans of Foreign Wars, and Jewish War Veterans. Sangamon County Bar Association members will walk to the tomb Monday from the courthouse where Lincoln practiced law.

Col. Frank E. Mansfield and Capt. William N. Ladney will place a wreath at the tomb on behalf of President Truman. Wreaths also will be laid tomorrow by Governor Stevenson, Stassen, and patriotic organizations.

Governor Takes Part

The governor will take part in Legion ceremonies within the tomb to be broadcast at 12:45 p. m. over the Mutual Network. George M. Craig, of Brazil, Ind., Legion national commander; Mrs. Norman J. Sheene, auxiliary president, and Merle E. Schaad, state commander, will participate in the program.

After the program, a Legion caravan will leave for New Salem 20 miles northwest of here.

A parade tomorrow morning will launch VFW ceremonies. Following the VFW pilgrimage, Clyde Lewis of Plattsburg, N. Y., national commander, will speak at a dinner.

On Monday, David S. Mearns, assistant librarian of the Library of Congress and editor of "The Lincoln Papers," will address the Abraham Lincoln Association.

The Gettysburg Address, Modern Version, That Is

Sunday being the birthday anniversary of Abraham Lincoln, we are re-printing below a modern version of his famous "Gettysburg Address":

"One score and 17 years ago our fathers brought forth upon this nation a new tax, conceived in desperation and dedicated to the proposition that all men are fair game.

"Now we are engaged in a great mass of calculations testing whether that taxpayer or any taxpayer can long endure. We are set on form 1040. We have come to dedicate a large portion of our income to a final resting place with those men who here spend their lives that they may spend our money.

"It is altogether anguish and torture that we should do this. But in the legal sense we cannot underestimate this tax. The collectors, clever and sly, who computed here, have gone far beyond our power to add and subtract.

"Our creditors will little note nor long remember what we pay here, but the Bureau of Internal Revenue can never forget what we report here. It is rather for us to be dedicated to the great task remaining before us—that from these vanished dollars we take increased devotion to the few remaining, that we here highly resolve that next year will not find us in a higher income bracket."

County Clerk Sterling D. Schrock issued a marriage license today to a Dixon couple, John O. Jenkins, 22, and Miss Rose Marie Springer, 18.

Information On Activities Here Sought

What Did He Steal, Who Got It, Query?

Washington, Feb. 11—(AP)—Security-minded congressmen looked to England today for more information on the American activities of Klaus Fuchs.

Particularly they want to know what information the high-ranking nuclear physicist is accused of giving to Russian agents, and who those agents were. As a member of a wartime British atomic team, Fuchs worked in U. S. atomic energy laboratories at Oak Ridge, Tenn., and Los Almos, N. M.

Confession Reported

Prosecution witnesses told a London court yesterday that the 38-year-old German - born scientist had confesed to being a paid Russian spy. Fuchs was bound over for trial at court sessions beginning Feb. 28.

In his confession, the court was told, Fuchs said that he gave information to Soviet agents twice during the 1943-46 period he was in the United States.

Chairman McMahon (D-Conn) told a news conference yesterday that the senate-house atomic energy committee is interested in knowing exactly what Fuchs "stole and gave away."

He said the committee knows generally what was in the reported confession, but acknowledged there was some detailed information which had not yet been made available.

McMahon's news conference was cut short after a reporter asked for estimates on the cost of the H-bomb.

"I wouldn't tell you if I could" the senator answered. "There is a representative here of a news

Man Is Hurt In Car Crash; Arrest Driver

A passenger was hospitalized with an injured back and a driver was charged with drunken driving today after a car careened across route 26 at 3 a. m. today and into a 15-foot ditch.

The injured passenger was Kenneth Williams, 24, of 311 Monroe avenue. His physician could not be reached for a specific statement on his injuries, but KSB hospital said his condition was "good."

Butler Arrested

The driver, Roman Butler, 27, of 1215 W. Second street, was taken to county jail and held on a drunken driving charge. He will be arraigned this afternoon in Judge Grover W .Gehant's county court.

The car went off the wrong side of the road on 26 about 300 feet northwest of the intersection with Lowell Park road. The trio was returning to Dixon when the accident occurred.

The car looked as if it had "rolled over twice." A third occupant of the demolished auto, Darwin Reed, 24, of 1300 Long avenue, apparently was uninjured.

State Patrolman Donald Sachs, Ashton, investigated the accident. Dixon Officers William Killian, Glen Camery, Jr., and Edward Trotter also were called to the scene.

Reuters towed the wreck to Dixon.

British Admiral Is Intended Gun Target

London, Feb. 11—(AP)—Unknown gunmen fired shots at Britain's director of naval intelligence today and escaped after a nine mile automobile chase.

Two bullets riddled through the windshield of the car driven by Rear Admiral Eric Longley-Cook as he was driving through Uxbridge, on the northwest outskirts of London.

Uninjured, he sped after the car from which the shots were fired but it eluded him near Acton, a West London suburb.

All police cars in the area were alerted by radio and an intensive search of the west side of the city began.

"Early developments are expected," a police spokesman said.

Dies During KSB Tonsillectomy

DIES UNDER ETHER — Frederick Gehant, 25, of West Brooklyn, who died during a tonsilectomy at the KSB hospital here Thursday. (See adjoining column on this page for details.)

Clink to Pay $225 Monthly To His Family

LeRoy Clink, Sublette, was ordered to pay his wife and four children $225 a month support Friday afternoon by Circuit Judge George C. Dixon.

Earlier in the day, Judge Dixon invalidated a separation contract between Clink, 43, and his wife Frances, 38, on the ground that a New Mexico agreement between the two was not recognized in Illinois.

Judge Dixon ruled that Clink did not intend to stay in New Mexico when he entered into the contract there, and secondly, that a clause in the contract limited Mrs. Clink to $225 monthly support, contrary to public policy in Illinois.

New Hearing Set

Judge Dixon also ordered a hearing April 10 for a property settlement, advising both parties to be ready to settle the property dispute.

Last month a Lee county jury refused to believe an adultery charge leveled by LeRoy at his wife and awarded Mrs. Clink, now living in Amboy, a separation decree. LeRoy had asked for a divorce.

The original agreement the Clinks also provided that the wife take title to a 40-acre section of the Clink farm, with LeRoy taking title to 153 acres. The contract stipulated that both would hold the land in trust for the children.

Bracken Objects

A clause, however, giving each the right to sell the land in the

Dixon Banks To Be Closed on Monday

Although the anniversary of Abraham Lincoln's birthday is on Sunday, Feb. 12, it will be observed in the state on Monday, Feb. 13. Dixon banks will be closed on Monday, as will the Lee County court house and the city hall.

The post-office will remain open Monday, according to Postmaster Rae Arnould.

West Brooklyn Man Succumbs As Heart Fails

Frederick Gehant, Age 25, Is Victim

An operating table at KSB hospital, so many times a life-saving scene, proved to be the death bed of Frederick Gehant, 25, West Brooklyn.

Gehant, a farmer, died about three-quarters of the way through a tonsillectomy Thursday morning at 9:15.

At the inquest in Jones Funeral home late Thursday afternoon, a coroner's jury returned a verdict of "death by cardiac failure."

Four doctors worked an hour to revive Gehant after his pulse stopped during the operation. Dr. William McNichols had removed one tonsil and half of the other when Gehant's pulse stopped, according to testimony at the inquest.

Dr. McNichols Summoned

Dr. Samuel Adler was the attending physician, but Dr. McNichols was called in to proceed with the operation when Gehant's mouth couldn't be opened. He was under ether, administered through a mask by Dr. Lesage.

Dr. Lesage told the six-man jury:

"It was impossible to retract the jaws. The area of the opening was small. Dr. McNichols was operating in the adjoining room, and he had just finished when we called him. He proceeded to do the operation on the patient. It was during this time apparently that the patient had suddenly stopped breathing."

Dr. McNichols testified that the first tonsil came out with "fair ease," and although the tonsils were small and imbedded the patient seemed all right.

The surgeon went on to say that it is not unusual for a patient to stop breathing on the operating table, adding that if the patient has a pulse, breathing can be restored.

Dr. Stackhouse Gave Aid

Dr. Stirling Stackhouse, the inquest disclosed, administered respiration pressure through an oxygen machine in an attempt to inflate the lungs.

Adrenalin was used in a vain attempt to stimulate the heart, and the doctors said other drugs were used in the blood stream, all to no avail, however.

Dr. Lesage said there was no sign of either pulsation or breath-

Promotion for Cliff Coughlin

Cliff Coughlin, 36, sports editor of the Dixon Evening Telegraph, has been named editor of the Woodstock Evening Sentinel and will begin his new duties Monday. His successor has not been named.

Coughlin came to the Telegraph about a year ago from the LaSalle News-Trbriune where he had been state editor.

Prior to that he had other experience in the daily and weekly field.

The Sentinel is owned by the B. F. Shaw Printing Co., publishers of the Telegraph.

Rival Mine Union Chief Says John Lewis Fathered T-H Law

Springfield, Ill., Feb. 11—(AP)—John L. Lewis has been characterized by a rival mine union chief as the "father" of the Taft-Hartley law.

That was the gist of remarks yesterday by John Marchiandio, president of the Independent Progressive Mine Workers. He said Lewis' unwarranted actions provoked passage of this law."

The mine workers leader said Lewis wanted the Taft-Hartley act used in the current coal crisis for two reasons:

1. To "discredit the administration."

2. To "pull him (Lewis) out of a hole so he can blame his strike failures on the application of the law rather than his own action."

The PMW claims 15,000 coal diggers, mostly in Illinois.

The PMW during its 17 year history has waged bitter battles with Lewis' UMW for representation of miners.

The Progressives have been working under an extension of a contract which expired June 1, 1949. Most of the United Mine Workers, on the other hand, are on strike.

Ingrid's Divorce Papers En Route to Rome Via Air; Plans Immediate Marriage

El Paso, Tex., Feb. 11—(AP)—Ingrid Bergman's divorce papers are on their way to Rome, Italy, "by United States airmail."

"I sent the papers tonight by United States airmail," Attorney William Cocke said last night. He handled details of Miss Bergman's Juarez, Mexico, divorce from Dr. Peter Lindstrom, Hollywood, Calif., surgeon.

Miss Bergman, to whom a son was born nine days ago, is expected to marry Italian film director Roberto Rossellini as soon as the papers arrive.

Cocke said he had turned down an offer by a "Holland air line that flies the Atlantic to team with a Mexican airline and deliver the papers personally."

He would not elaborate.

Cruelty Charged

Miss Bergman's divorce was granted Thursday, on the grounds of mental cruelty, non-support and incompatability.

The beautiful actress' Rome attorney had said yesterday the papers might be rushed to Rome by special plane.

"Poppycock," said Cocke of this.

Rossellini, who was named as the father of Miss Bergman's baby by Dr. Pier Luigi Guidotti, her physician, was jubilent over the news of the divorce. He told newsmen Miss Bergman was "overjoyed."

"Oh, why could it not have happened ten months ago," he exclaimed.

Doctor Won't Appeal

Dr. Lindstrom did not contest the divorce action in Juarez, just across the international boundary from El Paso. A spokesman-friend, John Vernon, said Lindstrom did not plan an appeal still open to him under Mexican law. Dr. Lindstrom plans to file suit himself for divorce in California, as soon as details of a property settlement and custody of the couple's 11-year-old daughter, Pia, can be worked out.

Miss Bergman's baby, now called Roberto, Jr., may be registered under the name Rossellini as father with the mother "unknown," according to Il Giornale D'Italia, influential Rome newspaper.

Marino, Teacher Of Music, Found Guilty of Murder

Chicago, Feb. 11—(AP)—Arthur Marino, 29 year old music teacher, was sentenced to 50 years in prison last night after a jury convicted him of the 'lovers' lane slaying of his pretty 17-year-old fiancee.

Imposing the sentence recommended by the criminal court jury, Judge Leonard C. Reid said: "The defendant does not know how lucky he is in my estimation." Reid denied a motion for a new trial.

The state asked that Marino be sent to the electric chair for the murder last June 28 of his sweetheart, Joan Coward, a suburban Blue Island high school junior. He was accused by the state of fatally beating her in a lover's lane in suburban Dolton.

Marino, who did not testify, had told police two men had attacked them while they were parked in his car. He said they had forced him to drink ammonia and beaten and strangled Miss Coward.

Marino brought her unconscious and almost nude to the suburban Riverdale police station early June 29. She died soon afterward.

Marino wore only shoes and a shirt wrapped around his waist. He claimed he could not speak because of the acid burns in his mouth.

At the trial Marino did not testify. Physicians testified ammonia would have been fatal Marino. A grocery proprietor said she sold ammonia to Marino the night of the slaying.

Betty Hutton Sues Briskin for Divorce

Santa Monica, Calif., Feb. 11—(AP)—Betty Hutton says she and her husband, camera maker Ted Briskin, "did everything we could to make a success of it, but it was no go."

The 28-year-old actres filed suit for divorce yesterday.

Get Rid of Defeatism, GOP Is Told

Chicago, Feb. 11—(AP)—Illinois Republicans were told last night to shake off defeatism and win in 1950 by offering voters more political honesty and courage, plus freedom from "the gold brick of big bureaucracy."

Eight hundred state GOP leaders and candidates heard Gov. Alfred E. Driscoll of New Jersey and Carlos W. Campbell, state party chairman, at a Lincoln Day dinner at the LaSalle hotel.

Confident GOP To Win

Campbell, Springfield insurance man, told a crowd of 800 last night that the Illinois GOP is confident of 1950 election success.

He said it is "time to turn our back on defeatism."

Driscoll assailed the Democrats and "the burdensome, frequently stupid, big government" he said they have "foisted" on the nation.

He called for less federal bureaucracy and for more of what he termed "cooperative federalism."

This, he said, means "responsible government at its best—home rule. It means a federal government of sovereign states."

These state governments, he added, should be able and willing to assume responsibility for governmental services their people desire, and "competent to sustain

Charge Sarver Tipsy Driver

Rupert A. Sarver, Grand Detour, will enter county court at 11 a. m. today under a drunken driving charge pressed by Dixon police Friday after he lost control of his car, ran over a curb, and into a front yard at 606 Depot avenue.

According to Assistant Chief Frank Tyne and Officers Ray Wilson and Robert McCoy, Sarver abandoned the car, went through the yard, and entered Wilson's tavern.

Francis A. Riley, of the Depot avenue address, called Dixon police and Sarver was arrested at the tavern. Police are holding his car, pending the outcome of his arraignment, when his rights will be explained to him and he will enter a plea of guilty or not guilty, or ask for a lawyer.

Hawaii Takes Step Towards Statehood

Honolulu, Feb. 11 — (AP) — Hawaii voters today began choosing candidates for a constitutional convention as the first step toward what they hope will be eventual statehood.

There are 243 contenders for the 63 seats. The final 63 will be chosen in a runoff March 21 among survivors of today's primary. Voting is non-partisan.

Taft - Hartley Law Is Used By President

Judge Signs Order On Request Today

Washington, Feb. 11.—(AB)—Preisdent Truman got a 10-day Taft-Hartley injunction against the coal strike today.

Federal Judge Richmond B. Keech signed the order in a little less than an hour after a presidential fact - finding board reported to Mr. Truman that a resumption of coal mining is imperative.

The justice department acted on an order from President Truman which declared that continuation of the work stoppage "will imperil the national health and safety."

Judge Keech restrained Lewis and the UMW from:

"Engaging in, calling, supporting, sanctioning or approving, or encouraging or ordering members of respondent UMW employed by the coal operators, included among and represented by the employers, to engage in any strike, work stoppage and or concerted refusal to perform services for the said coal operators, insofar as said strike, work stoppages and/or concerted refusal to perform services are in support or further involve respondents' demands as aforesaid, or permitting any orders to engage in such conduct to remain in effect."

That portion of the order apparently was aimed directly at a suggestion from Lewis that the miners might not work under court order.

Henry Hull, clerk of the court, told reporters that a hearing on a preliminary injunction—more lasting than the temporary restraining order that was issued immediately—will be held by Judge Keech Feb. 20.

Should the miners refuse to abide by the order, Lewis and the union may again get into contempt of court.

In 1946 and 1948 Lewis defied back-to-work orders and paid fines totaling $2,130,000.

Lewis a week ago rejected a last-ditch peace plan offered by President Truman, and in so doing hinted that the miners might not work even during an injunction or might work very slowly.

Issuance of the restraining order during the national

New Alert in C-54 Hunt as Signals Come

Seattle, Feb. 11—(AP)—Weak distress signals heard throughout the night in many parts of the United States have brought a new alert in the search for the C-54 missing 16 days in the Yukon, the CAA reported today.

Most calls were on the unusual wave length of 1722 kilocycles which proved puzzling to searh officials.

At the same time, Seattle coast guard headquarters said all U. S. military services had been asked to keep direction finding radio receivers tuned on the 500 and 8280 kilocycles international distress frequency.

The CAA said the 1722 KC signals were first heard by its station at Atlanta, Ga., at 9:34 p. m. (CST) last night.

Between then and midnight, faint transmissions were monitored through heavy static by the CAA station at Cedar City, Utah; and amateur radio operators at Sundance, Wyo.; Detroit Lakes, Minn.; Fargo, N. D.; Denver, Colo.; Seattle and Bremerton, Wash., and the Arkansas state police radio, at Harrison, Ark.

The Atlanta CAA station broadcast an alert. It said it had been informed by the Federal Communications Commission that the 1722 KC emergency frequency has been assigned to a Hawaiian group of stations and is regularly used by the Arkansas state police network.

★ WEEKLY BIBLE COMMENT

Spreading the Good News of the Gospel

By WILLIAM E. GILROY, D. D.

Christianity in conception and action has been from the beginning a missionary religion. It is dynamic, not static. Its law of love and righteousness is a law of growth. Individual Christians are commended to "grow in grace and in the knowledge of our Lord and Savior, Jesus Christ" (II Peter 3:18).

As Christians grew in grace inevitably the impulse and purpose came to make the gospel of grace known to others. A religion that never grows is not the religion that Jesus brought to men. His commission to His disciples was to go into all the world and preach the gospel to every creature.

They were true disciples who were first called Christians in Antioch; not mere professors, but possessors, of the Chritian faith, inspired by its love and power. Among them was Barnabas, the noble, well-to-do Christian, who sold his possessions, that is his worldly possessions, and gave all for the common cause. And among them, also, was the new convert Paul. Some disciples, knowing Paul's record as a persecutor, were fearful lest his professed conversion be a pretense, but Barnabas believed in him, and sought him out, and brought him to Antioch (Acts 11:25, 26).

Here they were together for a year, in the fellowship of a growing church, in an evident ecstacy of Christian grace (Acts 11:26). The movement that sent Paul and Barnabas upon the first missionary journey westward, the beginning of the course of the gospel toward Europe, and toward continents not then discovered, was not, therefore, a hastily formed plan. It was a well-considered conscious intelligent, Christian purpose, springing directly from the power of the new experience, and expressing exactly what Jesus had designed.

As Paul and Barnabas went forth, accompanied by John Mark, the author of the second Gospel in the New Testament, their missionary journey was the first of several for Paul, and Barnabas was to take another journey, accompanied by John, when he and Paul fell into disagreement about John (Acts 15:37-41). Even good Christians have the privilege of not always seeing eye to eye, though their differences ought to be in love.

The only way to get a good understanding of Paul's journeys is to take a map of that ancient world, found in many Bibles, and trace the journey, place by place, with the account of what happened, in the Book of the Acts. If one will at the same time take a small encyclopedia, or a larger one; and see what it has to say about each place—especially Corinth, Ephesus, Athens, Rome, etc.—it will add greatly to the enjoyment of the study, and give one some conception of the power of the Gospel, making its way in the immensity of that vast pagan world.

It is a marvelous story, and one about which we cannot know too much.

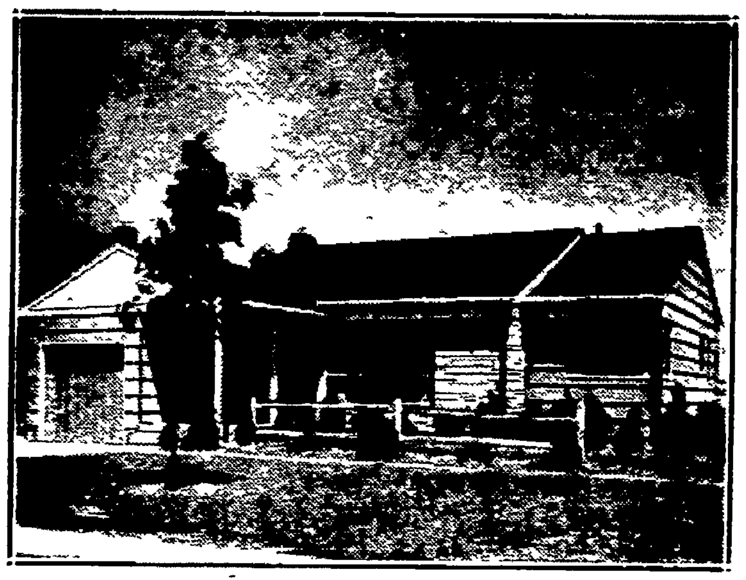
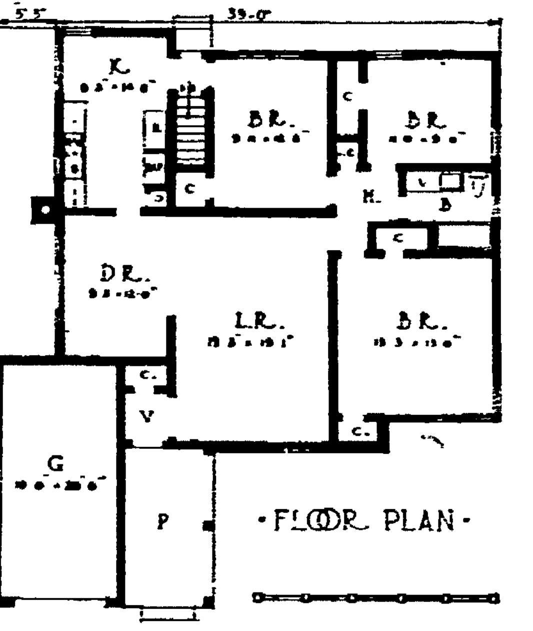
HOW TO BUY BUILD ☆ FINANCE MODERNIZE ☆ FURNISH IMPROVE ☆ YOUR HOME

High-Styled, Low-Priced Home





This delightful 3-bedroom house achieves its pleasing horizontal lines by long roof design and use of white-painted trim. The ranch feeling is enhanced by the combination of wood shingle siding and fieldstone, set off by the rail fence. Attractive picture window adds to the appearance of the front, and the covered porch gives easy access from the attached garage. Building plans call for steel girder construction on poured cement foundation; lath and plaster walls: hardwood oak floors, aluminum window-sash, weatherstripping and copper piping. The basement houses laundry and heating units. Heating is by oil burner with combined hot-water baseboard radiation and convection-type radiators. Efficiency of the heating plant is greatly increased and fuel consumption is decreased by mineral wool insulation. Provision is made in the kitchen for built-in ventilating fan, electric range, refrigerator, dishwasher and radio. The bathroom has built-in dressing-table and clothes hamper. Entrance vestibule with coat-closet is a convenience, as are spacious bedroom closets and central linen closet. Open planning of 13' 3" x 19' 1" living-room and 9' 3" x 12' 0" dining-room provides air, light and outlook. Rear entry is convenient to kitchen, rear bedroom and basement stairs. Designed to cost less than $16,000, including all equipment, this house is an outstanding example of ranch-house architecture.

Elect Honest Men, End Gambling

A gunman fired a shot thru a hospital window in the seventh unsuccessful attempt on the life of Herbert Noble, Dallas gambler. Noble was in bed recovering from a bullet wound received in the sixth attempt to kill him. His wife was killed a few months ago by a bomb planted in his automobile.

On the same evening a bomb shattered the home of Mickey Cohen, Los Angeles gambling boss, but he escaped uninjured. Cohen is also a clay pigeon for his competitors, who killed several of his lieutenants and wounded him in previous forays.

Cohen conducts a general criminal business. He has been implicated in the blackmail racket and in the slugging of shopkeepers. In a recent garment trades dispute in Los Angeles, each party asserted that the other side had availed itself of Cohen's services.

So far as the record shows, Noble is only a gambler. He alleges that the attacks on him have resulted from attempts to invade the trade in the Texas city where oilmen with less than 30 millions are accounted "small rich" and the betting is on a corresponding scale. In general, tho, the big time gamblers of the country are gangsters, who use gunmen to protect their illegal preserves and are not averse to hiring out their private armies for other varieties of commercial bloodshed.

There has been a good deal of talk recently of a national gambling syndicate ruled by Frank Costello, the gambling and slot machine boss in New York. He has close ties with Tammany Hall. His partner, Frank Erickson, appeared at a top level soiree for Mayor O'Dwyer during the latter's recent campaign for re-election. The old Capone syndicate in Chicago seems to be playing second fiddle, but it had enough influence at the White House and the department of justice to spring four of its bosses who were doing time for extortion.

Gamblers about the country certainly cooperate with each other. They use the same information service for their handbooks, and it is a potent instrument in establishing who may and who may not book horse bets. They frequently furnish hired killers to each other. Out of town boys are preferred for such jobs as they are harder to trace.

But the idea that the criminal gambling syndicate can only be wiped out by a national effort, directed by the FBI, is strictly baloney. Gambling is a local enterprise. Whether it is carried on in New York, or Chicago, or Los Angeles, or Dallas, or Miami, or LaSalle county, Illinois, it operates on the same essential principle.

The gamblers must get permission to operate from local law enforcement officers, the prosecutor and the police chief or sherif. No smart gambler ever bucks the local law. If he can't fix it, he moves on to a locality where he can.

Thus the suppression of gambling and the prevention of the other crime that follows it is wholly up to local citizens. If they don't want it, all they have to do is elect honest local officials.—Chicago Tribune.

How thin is a slice? With a new method developed by the bureau of standards, it is so thin that a stack of 750 slices would be as thick as an average human hair.

Television actors with parts in "continuing" dramas, who have to learn and perform new lines each day, will, in the future, be aided via directed, short-range, short-wave radio.

One atomic bomb dropped on Manhattan and properly detonated over one of the two clusters of skyscrapers could kill 200,000 and injure a like number.

Don't Make Wife Feel That She's on a Dole

"Ever since we were married five years ago I've given my wife a household allowance. Now she's not satisfied with that, but thinks we ought to have a joint checking account—because some of her friends have.

"Since I have always been generous with her and given her money for the things she needs whenever she askes me I feel justified in saying 'No' to the idea of a joint checking account.

"Will you please discuss this matter in one of your columns?"

Yes, sir. I'll be glad to discuss it. But you aren't going to like what I have to say.

Because I think your wife is asking for something she is entitled to have—the right to be a grown-up, trusted partner in your marriage.

You say you have been "generous" with your wife. That tells more than you think. It means you hand out money to your wife like a father to a child. Maybe that makes you feel generous and bighearted.

WIFE FEELS LIKE A BEGGAR

But have you ever stopped to think how it makes your wife feel to have to ask you for money when she wants to buy a dress or a birthday gift for a relative, hoping that you'll be in a "generous" mood? Not very kindly toward you, you may be sure.

No woman feels kindly toward a husband who puts her in a position where she has to ask him and hope for his "generosity" whenever she wants something.

By all means, open up that joint checking account. You can feel just as "generous" with the money you earn if you give your wife the chance to feel it belongs to both of you as you do by doling it out to her in small amounts.

In fact you should feel a lot more "generous" for you'll be thinking of your wife's feelings rather than your own.

By WILLIAM E. McKENNEY
America's Card Authority

When George A. Alderton II, of Detroit, was president of the American Contract Bridge League, he did a great deal in proving to prejudiced groups throughout the country that tournament bridge is one of the cleanest forms of pastime. Clergy and church groups have taken it up as it is one game which can be played without any stake.

Mr. Alderton tells me that his son, George III, started a duplicate game at Bethany College. In one of their games recently Mitch Bedford of Syracuse, N. Y., and Arthur Ames of Boston, were top North and South, while Wes Blamick of McKeesport, Pa., and Dave Bohlman of Niagara Falls, N. Y., were top East and West.

Bedford's father, who is a clergyman in Syracuse, plays duplicate also. Young Bedford is studying for the ministry and has had a pulpit in Pennsylvania.

6 ♠	Pass	Pass	Pass

Opening—♥ K 11

In today's hand I think Bedford (sitting South) handled the timing very well. West made a very smart opening of the king of hearts, which declarer had to win with the ace. The ace of clubs was cashed by declarer. The ten of clubs was trumped in dummy with the six of spades.

The nine of diamonds was returned and overtaken by declarer with the ten-spot. The nine of clubs was trumped with the eight of spades. The king of spades was cashed and then Mitch played the jack of diamonds, which was overtaken with the king in his hand.

He then cashed the ace of spades and led the four of diamonds, winning the trick in dummy with the ace. On the fourth diamond he discarded his nine of hearts and conceded to his opponents the queen of trump.

Thus, by utilizing all of his entries and carefully timing the play of the hand, declarer made the slam contract.

Q's and A's

Q—Who was the first President to pay income tax?

A—The first President to pay income tax was Woodrow Wilson. His official salary was exempt but he paid a tax on his income from other sources. The first President to pay tax on his official salary was Franklin D. Roosevelt.

• • •

Q—What is the area of Christmas Island?

A—Christmas Island, with 184 square miles of land area, is believed to be the biggest atoll in the Pacific.

• • •

Q—Is it a fact that the word news is derived from the four points of the compass?

A—Although this explanation is sometimes given, the word actually comes from the Latin word nova, meaning "new things."

• • •

Q—What is the purpose of blinking the eyes?

A—According to the Better Vision Institute blinking keeps the eyes moist and clean, and provides rest and refreshment for the nerves and brains. A man whose eyes were kept open forcibly would go to pieces.

• • •

Q—What is meant when it is reported from Washington that senators were paired?

A—Paired, in legislative parlance, means that two members of opposite party or opinion have agreed not to vote on a given question during a specified time. The reason, ordinarily, is that one of them expects to be absent.

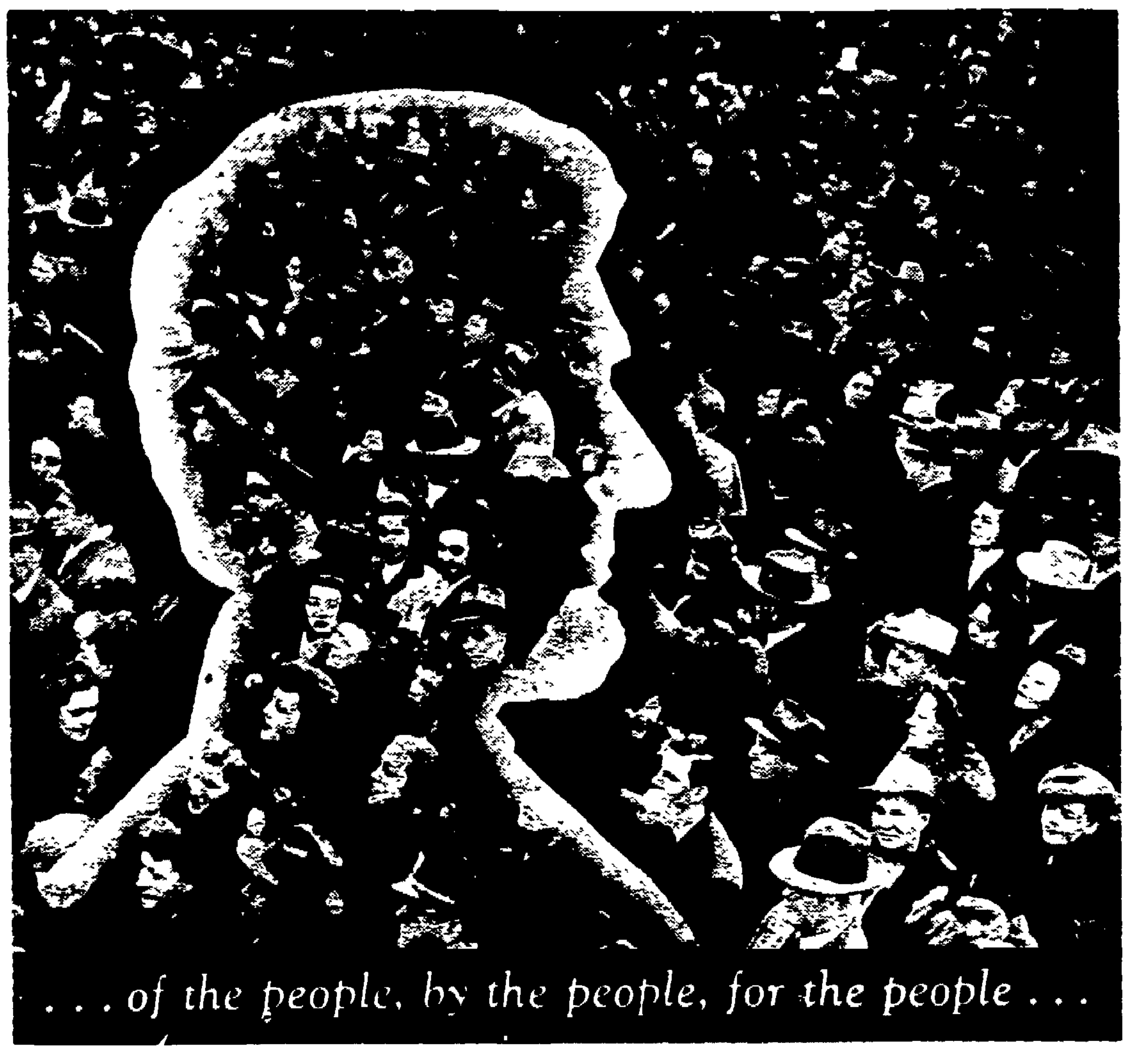
What's RIGHT?

Someone puts in a long-distance telephone call to you.

WRONG WAY: Keep thinking of one more thing you want to say whenever the person starts to end the conversation.

RIGHT WAY: Let the person who is paying for the call end the conversation whenever he wants to.

WE MUST REMEMBER . . !



. . . of the people, by the people, for the people . . .

Take time out to think over this familiar phrase from Lincoln's Gettysburg address. Looming over free men everywhere is a dark philosophy that denies the essential worthiness of the common man and makes of him a puppet of the state. The world is approaching the crisis of the individual as the state encroaches more and more upon his life, liberty and happiness. Lincoln's immortal nine words are more significant now than when he spoke them. He knew—and we must remember—that the common citizen is the one upon whom the welfare of the state depends.

New Books at the Dixon Library

Library Hours: 10:00 a.m. to 9:00 p.m. daily except Sundays and holidays.

PEBBLE IN THE SKY, by Isaac Asimov. Another of the new and popular science fiction, of the strange and weird.

THE DREAM GATE, by Marcus Bach. Through the eyes of a small boy, the reader views the Hutterians, Christian Communists, way of life as they withdraw and shut out the world. Joshua Volkner ran away, returned 15 years later with arguments for the American system.

JUBILEE TRAIL, by Gwen Bristow. The story of a New York society girl, bored by her life and dull friends, married a Westerner whose business plied the Jubilee Trail to California.

THE CASE OF THE NEGLIGENT NYMPH, by Erle Stanley Gardner. The latest of this prolific author's mystery stories.

FARAWAY HAVEN, by Lida Larrimore. Another of this author's romances.

WOMEN IN THE OLD TESTAMENT, by Norah Lofts. "Twenty psychological portraits" of women in the Old Testament written in modern style which explains the women and makes them as knowable as a next-door neighbor.

IRIS FOR EVERY GARDEN, by Syndney B. Mitchell. Popular and practical information about iris, all varieties; a "must" for all iris lovers.

RANGER'S LUCK, by William MacLeod Raine. A western by a long-time favorite.

THE BECKONING DOOR, by Mabel Seeley. A new Crime Club selection.

PEACE OF SOUL, by Fulton J. Sheen. Monsignor Sheen's powerful best-selling answer to "Peace of Mind."

THE FAR CRY, by Emma Smith. The problems of an adolescent girl, daughter of divorced parents, is well handled in this novel of Teresa who is taken by her father on a voyage to India.

MY THREE YEARS IN MOSCOW, by Walter Bedell Smith, U. S. ambassador to U.S.S.R. writes clearly and gravely of his views of U. S.-Russian relations.

PULASKI PLICE, by Ruth Tabrah. The story of young Steve Kowalski proves a Pole can be accepted as anyone and grow out of the introversion of the foreign section in a big city.

KATE FULLER, M. D., by Dorothy Pierce Walker. A young woman M. D. finds her romance.

THE MODERN READER'S GUIDE TO THE BIBLE, by Harold Holliday Watts. Exactly as the title states, an intensely interesting book fitting the Bible and biblical knowledge to our everyday life of today.

THE VINTAGE, by Anthony West. The young son of Rebecca West and H. G. Wells has written a novel about war guilt, universal war guilt. An English officer who participated in the trials at Nuremberg, commits suicide and after death finds his life tangled with that of a German executed.

DEVICE AND DESIRE, by Mary Fanning Wickham. A light novel of social classes of Philadelphia which the author calls "a novel of bad manners."

THE MATING SEASON, by P. G. Wodehouse. Fans of the uproarious Wodehouse will delight in this new one.

NEW RECORDINGS

FACADE; poems by Edith Sitwell; music by William Walton. On this record Edith Sitwell reads her own poetry to the accompaniment of a chamber orchestra conducted by Frederick Prausnitz. It is a Columbia long-playing record and can be used only on machines playing 33½ r.p.m. records.

Voice of the People

The views expressed in this column are those of our readers and do not necessarily represent those of the editor.

FOR THE BUS COMPANY

To The Editor,
The Telegraph

In regard to the cabbies complaining to the mayor about the buses. They should realize what the buses do for the citizens of the city. During the war we all were so glad to have transportation to our work.

The buses did everything possible for the convenience of the patrons. They still continue to do the same. Children go to school and return home by bus. The people who work can ride for a small fare and also get to the place of employment on time. Cabs sometimes are too late or never show up.

Cab Fares Vary

The bus fare is a very small sum. The cab fare is thirty five cents for some patrons and more for others for the same distance, do they think this fair to the patrons. The cabbies are the ones to be investigated.

Very few people can afford the price of a cab twice a day and not so sure of getting one on time. We all complain of the cabbies. You read of them being hauled into court so often is it because they drink too much coffee?

As to picking up house calls nonsense I do not believe a word of it. Some patrons live on corners. Are they supposed to walk a block farther just because their house is on a corner? Be a man or a mouse.

Perhaps some elderly gentleman who has sacrificed most of his life in a cause of helping others and is still trying to keep on in life, or some aged lady who is still working trying to keep off the old age assistance list needs a helping hand, is it a crime for the bus drivers to lend a helping hand?

Cheaper In Sterling

Cabbies if you had courtesy and manners you would not be taking the time to complain to the city council but would be on the job making money. In Sterling and Rock Falls the cab fare is twenty five cents. And they operate under city ordinance.

The cab drivers in Sterling and Rock Falls are courteous, they assist the patrons in and out of cabs. They charge one fare to all. They never ask foolish questions. Now cabbies get a book and read up on how to hold your patrons and you won't be complaining about not having business.

Students May Rap 'Samson And Delilah' But Not Fans

By ERSKINE JOHNSON

Hollywood— (NEA) — There may be complaints from serious Bible students over the dramatic license Cecil B. DeMille has taken with "Samson and Delilah," but movie fans and Paramount's stockholders should be cheering.

The film is solid, sock entertainment blended with previous prewar spectacle—the greatest showmanship since "Gone With the Wind."

It's the third movie C. B. has made from the Bible ("King of Kings" and "The Ten Commandments") and there may be more

He told me: "I believe I can take any 60 pages of the Bible and make a great movie."

Andy Devine just signed up to do a series of square dancing calling records. They'll be put, no doubt, on asphalt-based records. . . . UI will reissue Michael Gordon's "Act of Murder" because of the spotlight on the mercy killing in New Hampshire. The film features an almost identical case.

WELL EDUCATED

It happened several years ago but I don't believe it has been told before.

After the completion of an epic film, a Hollywood producer told his publicity boss to arrange for him to be given an honorary degree from some important college.

The publicity man went to work and was turned down by every major college and university in the country. Finally he located a small but well-known college willing to hand out the degree to the movie tycoon.

The boss was informed of the college willing to honor him.

"Fine," he said, "but it's such a small college."

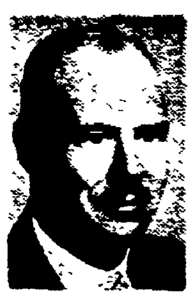
He thought for a moment and then came up with:

"Can't you get me degrees from TWO small colleges?"

NOT TOO DUMB

Marie Wilson's next, "My Friend Irma Goes West," will feature a character named Seymour Horwits—the real name of Irma's creator, Cy Howard. Cy wrote the name into the script. Which reminds me: Someone asked Parke Levy, who writes the Irma radio show with Cy, if Marie really is a nitwit:

"Of course she's a nitwit," replied Parke. "She only earns a stupid $250,000 a year."



☆ THE DOCTOR SAYS ☆

Funds Needed in War on Heart and Blood Diseases

By EDWIN P. JORDAN, M. D.

High blood pressure and hardening of the arteries are two dangerous enemies of health. Not only are these conditions serious in themselves, but they also affect the heart and, therefore, can be grouped among the serious heart and blood vessel diseases.

Hardening of the arteries is caused by gradual deposits of calcium in the walls of these blood vessels. Just what causes the deposits of calcium is not known, but they do occur in the older years. These deposits of calcium decrease the elasticity of the blood vessels and this, in turn, increases the resistance to the flow of blood. As a result, the heart has to work harder and people with advanced hardening of the arteries, or arteriosclerosis, are therefore liable to failure of the heart and to high blood pressure.

The deposits of calcium do not take place in all the arteries at the same rate. If, for example, they develop seriously in the blood vessels of the heart itself, angina pectoris or coronary thrombosis are likely. If they are in the arteries of the legs, the circulation to the legs is lessened and a person may develop severe pains in the calf muscles after walking a little.

Unfortunately, as yet there is no thoroughly satisfactory treatment for arteriosclerosis. What can be done depends largely on what arteries are involved and to what degree this has taken place. Consequently, the outlook for health and for life varies a great deal in people with hardening of the arteries.

Arteriosclerosis is, as I mentioned, one of the causes for high blood pressure, but it is by no means the only one. In some cases diseases of the kidneys can produce high blood pressure, and there are a number of other known conditions which will cause hypertension. One of these is usually known as essential hypertension. This is a form of high blood pressure the causes of which are poorly understood at the present time.

DIFFICULT TO TREAT

Because its origins are unknown, its treatment is also not entirely satisfactory. Some people seem to have been successfully treated with diet, particularly one low in salt, of which the well-known rice diet is one form. In others diet does not seem to have been of much help but giving substances which cause a fever may be useful.

In hardening of the arteries as well as in different forms of high blood pressure, it is important to carry out investigations which will discover the cause or causes, try to develop new methods of preventing their appearance, and develop treatments which will bring better results than any which are so far available. To do these things will take brains, equipment, and money. None of these are in excess supply, but it is only in this way that we can ever expect to conquer these serious conditions of the blood vessels. Anyone can help in this battle by supporting the campaign of the American Heart Association.

Dr. Jordan will answer questions from his readers in a special column once a week. Watch for it.

Abundant Living

E. STANLEY JONES

Luke 19:8—10; John 1:12—13; Rom. 5:1

RENOUNCE, RESTORE, AND RECEIVE

Now that you have taken the third step, take the next: (4) Renounce. At the heart of this new life there is a "No." It is the hardest word psychologically to say—"yes" is much easier. But you will have to say "No" to some things in order to say "Yes" to the real things. Among the effects of James Russell Lowell were found these lines:

"Here lies a part of J. R. L.,
The things that kept him from doing well"

A man promised a pastor that he would not drink again. After the pledge had been taken the man appeared in late evening and said he must be allowed to drink, or he would die. The pastor told him to go home and die, and went on with his work. The next day the man appeared with a new confidence in his face and said, "I died last night." He had, but a new man was alive.

(5) Restore. As you go over your life you will find things which you will have to right. You may have to ask forgiveness for wrongs done to others, for resentments harbored; you may have to make up a quarrel; you may have to restore money. In one of our missions, a young lady hesitated about dropping in the box a letter asking forgiveness for resentments harbored. But the moment the letter hit the bottom of the box a tied-up condition within her broke. She was free. In another mission the hotel management called us up thanking us for the mission—a woman had come and returned an armful of towels she had taken when she had been a guest at the hotel. Make a clean sweep with no compromises or half-performances.

(6) Receive. Here is the simple act of faith. To receive is an affirmation that God is as honorable as you are. You have given what you have, now you believe He will not do less—He will give what He has. And the best thing He has to give is Himself. He gives that. Keep repeating to yourself: "I take into my inmost being the forgiving love of God." Affirm, affirm, affirm.

O God, I do affirm. I have lived on denials too long. Now I live on the positive affirmation that Thou are love: that I can bank on that love; that that love will not let me down; that I can draw on it for all I need. And now, O God, I am on your hands forever. I am glad to be there. Amen.

SOCIETY NEWS

Friends of Library Are Called Upon

The Friends of the Dixon Public Library now two years old, launched the 1950 campaign yesterday According to Harold Cook, Chairman, letters have been sent out to members, past members, and prospective members. The dues are the nominal sum of $1 00 per year but any additional amounts will be gratefully accepted A copy of the letter is printed here

Dear Friends:

Two years ago the Friends of the Dixon Public Library was organized to further the interest of the library and to raise funds for vitally needed books.

Last year the library was beginning a new project—building a collection of recordings for circulating—and the Friends' money was used for that purpose. In February a year ago the first albums were bought; now one year later the library has a fine collection of 51 albums which circulate regularly. They are lent for a period of 3 days and a fine of 2c per day per disk is charged for overdue records. This project has made many new friends for the library and the borrowers have asked to make contributions to the record fund. No tax money has been spent for records, nor will be

All the money from the two Champain-Rice concerts (a third one will be given after Easter) is used to buy records. Proud as we are of the record collection, books are the backbone of any library, and again books are vitally needed. Therefore, you may prefer to indicate a choice of manner in which you wish your contribution spent, for books or recordings. Will you check your preference on the enclosed slip and return it with your contribution to the Dixon Public Library?

Your contributions are always very much appreciated and all money received will be spent very carefully as you wish it.

Yours truly,
Harold C. Cook,
Chairman.

Last year the "Friends" money was used to inaugurate the Record Department which has been growing steadily in size and popularity. The plan this year is to use some of the 1950 dues and contributions for additional recordings However books are needed badly, also. Therefore the letter asks each member to indicate a choice, the money to be spent for records or books These wishes will be very sincerely respected.

The Committee of the Friends of the Dixon Public Library and the Library Board both hope this will not be interpreted as a request for money; it is an opportunity to join others in supporting one of the outstanding cultural institutions of the community

Dues—or larger contributions—may be mailed to the Dixon Public Library or paid in person at the desk.

This is an opportunity to express in a simple but effective way your friendship for your Dixon Public Library.

Airlines Steward Sucked Through Door of Plane to Death 8,000 Feet Over N. Y.

New York, Feb. 11—(AP)—A crewman was sucked through the open door of a giant airliner early today as the plane winged its way through darkness 8,000 feet over Long Island.

A search was begun for his body.

Airline spokesmen said a powerful air draft tugged John Harris, 28-year-old steward, through an accidentally open door of the pressurized main passenger compartment.

Swept Into Space

The plane, a Pan American World Airways transocean stratocruiser, was flying at about 200 miles an hour when the door flew open, and Harris was swept out into space.

"I felt a sudden gust of wind," said Mrs. Anna Karjicek, a passenger. "The steward was standing near the door. Just like a flash, the wind blew him out."

"A long gasp or cry," followed, she said.

Other crewmen hurried into the passenger compartment to try to close the door, but were unable to do so because of the powerful wind pressure.

Mrs. Krajicefl, 57, of St. James, a Long Island N. Y., town, said that a few moments before the accident, Harris had been reassuring an aged woman passenger, and had told her:

"We'll soon be landing, and I'll take care of everything for you. You've got nothing to worry about."

Probe Launched

Inspectors of the Civil Aeronautics Authority and the Civil Aeronutics Board launched an immediate investigation. Crewmen were questioned after the plane—on flight from London—landed at New York international airport.

There was no explanation why the door came open.

Capt. John T. Dolan of Huntington, N. Y., pilot of the plane, said he had received clearance for landing, and was reducing altitude when Harris was lost through the opening of the main cabin door."

"The passengers remained calm and cooperative," he added. "The flight was completed withotu further incident."

Harris, of New York City, fell from the plane as it was flying over the vicinity of St. James, N. Y., on Long Island's north shore—about 45 miles northeast of the airport.

Twenty-two pasengers arrived on the plane.

Snowslides Bury Homes, Kill Nine

Annecy, France, Feb. 11—(AP)—Roaring snowslides on France's Alpine slopes buried homes yesterday and nine persons were believed killed.

Earlier this week 12 coal miners were killed in a snowslide on the slopes of the Alpe D'Huez.

ing after an hour of life-saving attempts.

Coroner Robert Preston brought out during the course of the inquest that Gehant had had back trouble for approximately six months and that the tonsils were thought to be the cause. Testimony also disclosed that a preliminary examination preceded the operation, with the results being satisfactory.

Had Rheumatic Fever

Dr. Adler also testified that Gehant apparently had rheumatic fever when a child, and that the fever may have weakened the heart.

The inquest also revealed that Gehant called his doctor two days before the operation and asked for a later appointment or to have the operation forgotten altogether.

The attending physician went on to say that Gehant did not relax, even under ether. He said because of Gehant's particular case, a local anaesthetic could not be used. At one point, Dr. Adler surmised that shock and fear had something to do with Gehant's death.

Those serving on the coroner's jury were Horace W. Hartman, foreman, R. W. Crawford, Percy W. Busby, J. H. Bradford, W. E. Wood, and F. L. Swanlund.

Gehant is survived by his widow, Bernice (the former Bernice Untz), and a daughter, Carol, 4.

He was the son of Mr. and Mrs. Alexander Gehant, 311 Morgan street, Dixon. He is also survived by two brothers, Leo and Vernon.

a powerful national government to represent America in the eyes of the world."

In opposing big government, he declared, Republicans don't mean to imply they deny "that the world of power politics requires a nation of big power."

Need Honest Men

He said voters must put their government in the hands of men as politically honest as Lincoln and courageous enough to cut spending. He added:

"There is nothing wrong with the present federal budget that a lot less spending could not cure.

"Centralized government and political honesty cannot live in the same air."

He called "me-tooism" a "much-maligned phrase," and said Republicans "must live the facts of life."

These facts, he said, are "the growth of world inter-dependence and complex domestic relationships."

Furthermore, Republicans must "reconcile the economic unity of our nation with the political and cultural diversity of our states."

Mad Spending Must End Now, Says Senator

Washington, Feb. 11—(AP)—Chairman George (D-Ga) of the senate finance committee today called for a halt in "indiscriminate foreign spending" which he said is driving this nation toward bankruptcy.

The veteran lawmaker, also a member of the senate foreign relations committee, told a reporter this country must cut down on its overseas aid ventures.

"We must pull back in our aid abroad," he said, "and strengthen the military defenses and economy at home."

George said the Russians' cold war policies are designed to weaken the American economy.

"Our economy is the keystone of the opposition to Communism," George said, "and if that is lost—then everything is lost."

George's statement indicated a coolness to the president's point four program to give technical and economic aid to underdeveloped areas of the world. That program may be approved by the house foreign affairs committee next week.

Taft-Hartley Law Is Used By President

(Continued from Page 1)

emergency provisions of the Taft-Hartley law came just after Judge Keech had signed another order forbidding Lewis and the United Mine Workers to maintain demands for contract provisions which the court said may be illegal.

Washington, Feb. 11—(AP)—President Truman's fact-finders told him today that an immediate resumption of coal mining is "imperative"—in effect, a call for a Taft-Hartley injunction.

The board reported that John L. Lewis and the coal operators have been "more concerned with gaining tactical advantages" than with trying seriously to reach agreement.

Hit At Union

It accused the union of failing "even at this late stage" to tell the soft coal mine owners exactly what it wants in wage and welfare fund increases.

The board, created as the first step in restoring production for 80 days under a Taft-Hartley injunction also criticized the coal operators for imposing obstacles to bargaining. It said the coal operators set up flat demands which would have to be granted before they would consider wage and welfare issues.

May Act Quickly

Mr. Truman was expected to ask Attorney General McGrath to seek a court order quickly.

But Presidential Press Secretary Charles G. Ross told reporters Mr. Truman would have to review the findings before he acts. The report was the last preliminary to court action under the national emergency provisions of the Taft-Hartley act. Meantime only a formal order from a federal court was lacking in a second legal move in the eight-months-old coal dispute.

Want Law Invoked

The presidential board obviously aimed one section of its report directly at establishment of grounds or invoking the T-H law's emergency provisions. It said:

"There is no justification for exposing the country to the harassments and progressive greater dangers that will flow from greater delay.

"Full opportunity has been afforded the operators and the union to work out their own difficulties.

"A greater interest has now intervened. The obligation entrusted to the operators and to the union, as the agent of the employes, to serve in a joint stewardship of these vital resources must be met.

"The health and safety of the nation demand this."

the board is headed by David L. Cole. He and the other members, John T. Dunlop and W. Willard Wirtz, have carried on intensive fact-finding activities since Monday. They even maneuvered the parties into fruitless negotiations under their eyes.

The government lined up this one-two punch against the United Mine Workers as the coal crisis grew in urgency. Fuel-short Chanute Air Base in Ilinos asked for an airlift to fly coal in from Canada. Railroad service was cut back, many factories were closed and thousands of workers were laid off, while the nation's coal stocks grew slimmer and slimmer.

Railroads Suffer

An Interstate Commerce Commission order cutting coal-burning railroad passenger service in half, and coal-burning freight service by 25 per cent went into effect at midnight. About 40 small lines were exempt.

The first federal court injunction against the UMW—one sought by Robert N. Denham, general counsel for the National Labor Relations Board—would bar Lewis temporarily from pressing for cherished contract demands.

Included in this category is the "able and willing" clause under which the UMW chief decreed the three-day work week which preceded Monday's general walkout of 370,000 miners.

The second injunction is the administration's Taft-Hartley act Sunday punch in labor disputes affecting the national welfare. It would order the strikers to return to work for 80 days—after which any further action might be up to congress.

Peace Not Certain

While the Taft-Hartley injunction could be sought today, there was a possibility it might not come until early next week.

Neither injunction carries a guarantee of peace in the coal fields.

Presidents Philip Murray of the CIO and William Green of the AFL, interviewed jointly at the White House late yesterday, told newsmen:

"Injunctions don't mine coal."

A three-man White House board of inquiry worked in shirt-sleeved haste to pass on to President Truman early today its formal finding on whether a "national emergency" exists, and why.

Double-Barreled Gun

A second injunction, it was reported on good authority, might be a double-barreled affair, effective on both miners and the mine owners, requiring:

(1) That normal production be restored in the coal mines; and (2) That bargaining be resumed toward a contract which would end the bitter test of strength which for eight months has held the industry in the grip of intermittent shutdowns, reduced output and fruitless negotiation.

The NLRB injunction, which will remain in effect only until NLRB decides on the legality of Lewis' demands, was promised on Thursday by Federal District Judge Richmond B. Keech.

The conference was attended by accredited members of the senate press gallery, including Jean Montgomery, representative of the Soviet News Agency, Tass.

In another atomic development, senate democratic leader Lucas of Illinois today called for "careful consideration" of proposals for a new study of international control of atomic energy.

Lucas said in a speech prepared for broadcast in Illinois that some scientists have asked for a fresh approach to the international atomic control proposals, and that commentators have urged President Truman to appoint a group of experts to study the problem.

"I believe the time has come to give careful consideration to all these ideas," Lucas said, "because they offer us the chance for another start, another effort to save our civilization while we still have time to do so."

The Atomic Energy Commission said that it still accepts British security clearance for scientists coming to this ountry for limited atomic work. That does not include the more vital projects, a commission official said.

Coughlin's Column

We wouldn't be amiss to say that Dixon fans are enjoying the finest prep basketball they've seen in recent years. And, brother, they're loving it! The gleam is on the eyeball and the song is in the heart once again.

The Dukes are now headed into the stretch with a 11-7 record. They're away ahead of the 1948-49 season no matter what happens. But there's no indication that they're going to do a nose dive and consequently local fans can expect more victories

The Golden Warrior jinx is on deck tonight. Sell not the Sterling club short. Coach Gene Hall has it rolling, too. That makes tonight's show a preview of the regional tournament here. Most everyone expects a Sterling Township-Dixon final—but don't figure on that as a cinch. There are too many good clubs involved. Sterling Community, Rock Falls, Prophetstown, Amboy can all be tough.

Since this is finis to the Coughlin's Column in the Evening Telegraph—the "30" chapter—we'd like to dwell a bit on the fine associations we've had in the Dixon area. At Dixon high particularly, where we've watched the beginning of a transformation in athletic policy. We've enjoyed a ring-side seat there to almost everything athletic—shared a few heartbreaks and the joy which comes with a task well done.

Dixon high is now well endowed with coaching talent. The gears are whirring once again and when the program is well developed, the success of it will become more apparent. It has impressed this writer that DHS coaches have always placed the business of developing manhood above the mere idea of winning. We've seen some marvelous transformations from youth to well-mannered, poised and gentlemanly young Americans.

We've seen athletes prodded into becoming scholars and often wondered if, in the classroom, equal emphasis is being placed on scholars becoming athletes—to strike the needed balance between a healthy mind and body. We mean competitive athletics where the progress can be measured and where the exultation of attainment sometimes can more than equal anything gained from a classroom tome. Of course, some persons do not understand those things.

We're going to leave the sweat and steam of dressing rooms for the editorship of the Woodstock Daily Sentinel—a challenge if we've ever saw one. We hope we can inject the same spirit of fairness we've learned from sports into a city desk job. Fortunately we'll be working for the same employers—the B. F. Shaw Printing Co.—and Mrs. Eustace E. Shaw, a faithful reader of this column.

So then, to my fine associates in the Telegraph news room, to Amos Sharpe and one of the most efficient and able composing room staffs we've ever known, to all Telegraph co-workers, an adieu. To Athletic Director Art Bowers and his staff, to the Dixon high school administration, the Dukes (the wonder boys!) and all our followers in the Dixon area, our sincere thanks for all the pleasure you've given us. Sports has given us more than we'll ever be able to repay.

So off to our faithful, considerate "Friday" Shultz this goes. This is IT. This is "30."

Legion Plays Washington of Rockford Here

Dixon Legion plays host here Sunday, at 2:30 p. m., to the strong Booker T. Washington AAU club of Rockford. The colored visitors need only one victory to clinch their own central division AAU title.

The Washington club is paced by Center Earl Doake who has scored 121 points in eight games. Doake has overcome an infantile paralysis handicap to become one of the clever ball handlers of the team.

The colored five have a depth of talent which includes such able players as Bill Pope, former East Rockford ace, and Tom Elmore who played his high school ball for West Rockford.

Cubs Purchase Vander Meer

Cincinnati, Feb. 11 — (AP) — John Samuel Vander Meer, Cincinnati's "Golden Boy" of the pre-war days, is changing uniforms after 12 years as a Redleg pitcher.

Vandy, best known for his two consecutive no-hit, no-run games in 1938, was sold yesterday to the Chicago Cubs for an undisclosed amount of cash. His Redleg career was one of ups and downs and his departure came after one of his "downs" seasons.

The 35-year-old southpaw was "up" in 1948 when he won 17 and lost 14, but last season it was another matter. He finished with five victories and 10 defeats.

COACHING ARTIST

Boulder, Colo.—Ski coach Steve Bradley, a painter noted for mountain and skiing scenes, is working toward a Master's degree in fine arts at Colorado.

NO CELLAR DWELLER

Cincinnati—Despite a seventh-place finish, Cincinnati was the only National League team besides Brooklyn never to drop into the cellar during 1949.

Dukes Bounce DeKalb Barbs, 46-36

Fourth in Row For Scofield's 'Wonder Kids'

By CLIFF COUGHLIN
Telegraph Sports Editor

The Dixon Dukes, a fiery hot ball club in the second half last night, scored their second sensational upset in the North Central conference, downing Coach George Dertinger's DeKalb Barbs, 46-36, as a large, appreciative and downright jubilant hometown audience looked on.

It was the second strategic victory for Coach Lon Scofield. Once his Dukes had delivered their Sunday punch, midway in the fourth period, they applied a zone defense so dense that the Barbs were suddenly bereft of anything resembling an offensive weapon.

• • •

Moreover, last night's triumph was the fourth in a row for the Dixonites, who are heading into the stretch breathing fire. It brings them smack up against Sterling in a non-conference game tonight. That should be a ding-dong battle since the Golden Warriors are presently riding the crest of a seven-game winning streak.

For basketball finesse, one could probably erase last night's first half. Both clubs certainly were not up to par. It should be mentioned that the first quarter ended 11-11 with the Barbs making a stab at victory in the second by edging the Dukes 8-4. That sent Scofield's crew into the second half behind 19-15.

• • •

Kenny Naffziger and Kelly Kappler set the tempo of the second half—but early. They each deposited a goal and Kappler got a free throw to give the Dukes a 20-19 lead.

• • •

It was Kappler, a junior, and Phil Kernan, a sophomore, who wheeled the Dukes into a 27-23 lead midway in the quarter, but Jim Vaughn, Dave Moore, and Dick Johnson rallied the DeKalb lads into a 28-28 deadlock near the end of the period. Then Kappler got his fourth goal of the quarter for a 30-28 Dixon lead. Vaughn tied it again and Struters shoved DeKalb out into the lead as the clock hit the red. Jim Mercer's rebound knotted it as the gun sounded for the third.

• • •

Dertinger's Barbs held on for about three minutes of the fourth before collapsing before the energetic Dukes. Naffziger presented his club with a 35-32 lead on a goal and free throw. Vaughn hit long and it was 35-34. Don Sproul punched in a long side try and it was 37-34 Dixon with three minutes gone.

• • •

Then the Dukes went into a modified stall. Naffziger wheeling down the middle was fouled and connected for a 38-34 count.

• • •

With two and one-half minutes remaining, the break came. DeKalb pressing for possession let Floyd Acker underneath after a long dribble. A half-minute later Naffziger drove the length of the court for another goal. That made it 42-34, and with the Dukes' zone functioning as efficiently as any zone could operate, the Barbs were through.

Red-headed Phil Kernan provided the finishing touch on a ball steal and a goal. He was later fouled twice and connected on both. That made it a convincing 46-36 with free throws by Struters and Rath adding to the DeKalb total.

Franklin Hits A 55-39 Win Over Steward

Franklin Grove — (Special) — Franklin Grove had too much for the visiting Steward five here last night and took a well-earned 55-39 win. It was the first time in four years that Franklin has been able to down the Steward team.

Coach Max Patrick's Franklin quintet was paced by the McMillion brothers. Dean McMillion had 19 points while Larry hit for 16. Bob Degner collected 12 for the winners.

Coach Maurice Errion's Steward crew divided the scoring evenly but failed to keep pace with Franklin.

The Franklin lightweights dropped a 45-19 game to the visitors.

Franklin's last scheduled game is at Amboy next Thursday night.

Barblets Defeat F-S, 30-17 for Victory No. 16

Coach Rudy Novak's DeKalb Barblets scored their sixteenth victory of the season last night as they trimmed the Duke froshsophs 30-17.

DeKalb's North Central conference leaders, while they did not overrun Coach Lloyd Swan's youngsters, nevertheless piled up enough points in the first period to assure themselves of relatively easy going.

After the first, when they led 13-4, the visitors had a considerable battle on their hands and were grateful for small margins gained in the third and fourth periods. The locals took 29 shots, scored but six, for a 20 per cent average.

Lee Center Wins From Hennepin

Lee Center — (Special) — Lee Center took a pair of games from Hennepin here last night. The varsity five won a 48-42 game while the reserves topped the visitors 38-29.

Wally Delhotal led the Bulldogs with 21 points. Dave Bollman hit for 12. Hennepin's leaders were Unikin with 14 and Reynolds with 12.

Lee Center plays at Steward next Friday.

Name Wilt Over Gehrmann In New Wanamaker Decision

New York, Feb. 11—(AP)—G-man Fred Wilt, and not Wisconsin's Don Gehrmann, won that thrilling 4:09.3 Wanamaker mile here two weeks ago.

The two hit the tape a split second apart at Madison Square Garden. There was a delay while the finish judges conferred. Then it was announced Gehrmann had won by a 3 to 2 vote. Chief finish judge Asa Bushnell cast the deciding vote.

The metropolitan AAU appeals group reversed the decision last night in a hotly debated 2½-hour meeting.

The conference table arbiters decided Bushnell made a wrong rules interpretation in naming Gehrmann the winner.

They ruled that only three finish judges had the right to name the winner. Two of the three picked Wilt first.

It's not certain that even the latest decision will stand. Gehrmann, the Wisconsin AAU or any interested party can appeal to higher bodies.

At Ann Arbor, Mich., Gehrmann said, "I will discuss the possibility of an appeal with my coach." He is competing for Wisconsin tonight against Michigan.

Wilt said, "I knew all the time that I won the race."

Gehrmann will have to turn over the $500 Rodman Wanamaker cup to Wilt. The great Wisconsin miler won the same race last year took the cup home believing he'd retired it permanently.

What the Dukes gave a week ago they took away last night.

DeKalb, roosting in a tie with Ottawa following Dixon's defeat of the Pirates a week ago, fell victim to Coach Lon Scofield's rampaging Dixonites last night and consequently found itself once again behind Ottawa in second place.

• • •

Ottawa coming out of its customary low-scoring maneuvering blasted Princeton 62-38 and boosted themselves right back into first place.

• • •

The Dukes, for all of their winning, could only raise themselves into sixth with a 3-3 record in the conference. However, as the ratings will show they remain in a position to skyrocket into something near the top should any of the upper bracket teams falter.

• • •

Sterling, now boasting a six-game winning streak, were in an ominous tie with DeKalb for second place following its 64-42 blasting of Hall Township. Sterling must meet Ottawa and DeKalb in its two remaining conference games. That can mean that the Golden Warriors are truy in a "golden spot" in NCIC circles.

• • •

Dixon's move into sixth came as a result of Geneseo's upset of Rochelle, 45-43, at Rochelle. Rock Falls showed strength in their 55-44 triumph over Mendota at Rock Falls.

Hawks Pound Out 61-34 Win At Mt. Carroll

Mt. Carroll—(Special)—Murney Lazier's Oregon Hawks moved to a 61-34 win over Mt. Carroll here last night. The improving visitors took a 26-13 halftime lead and raced through the last half with 35 points to the home team's 21.

Big Johnny Kozuch led the scoring for both teams by dumping in 21 points. Gifford had 10 for Mt. Carroll.

• • •

This was Oregon's eleventh win aganst seven losses. The Hawks have a 5-2 conference record to rank behind Lanark's 6-1 in the Blackhawk conference.

Oregon won the lightweight game 52-48.

Polo Dropped By Lanark in 45-42 Thriller

Polo—(Special)—Coach Harvey Sanders' Lanark five kept the Blackhawk conference lead here last night by dropping the home team 45-42.

Lanky Dick Miller led the invaders with 24 points on 10 baskets and four free tosses. He was matched point for point by Polo's Ronnie Messer who fielded 11 goals and two gift throws.

Polo was out in front at halftime by a 25-20 score but a determined Lanark rally in the third period netted 12 points to the host's five.

Paige Is Dropped By the Indians

Cleveland, Feb. 11—(AP)—Leroy (Satchel) Paige has played his last baseball game for the Cleveland Indians.

Hank Greenberg, Indians general manager, announced yesterday the aging Negro chucker was to be dropped from the roster.

"In order to make room for new men on our active roster, we believe it advisable to release Paige in view of his questionable physical codition," he explained. The Indians have seven men they can't send back to the minor leagues this season.

Just how old the Satchel is remains a secret. His age has been estimated between 45 and 50, but Paige won't say.

In July, 1948, Bill Veeck gave him a chance on a big league team. In the second half of that year he won six and lost only one. Without those victories the Indians would not have won the pennant and world championship.

Last year was not so good. He took part in 34 games, winning four and losing seven. His salary was around $20,000 last season.

Twenty-seven states have tree farm systems.

Byron Clinches Route 72 Title With 31-23 Win

Byron—(Special)—Coach Dick Haselton's Byron Tigers won their fourth straight Route 72 conference title here last night by defeating Winnebago 31-23.

Winnebago's Orr led the game scoring, but Elwood Himes, six foot, five inch forward, and guard Bob Weber each tallied eight points for the home team.

The visitors took a 7-4 lead and stalled most of the first half. Byron was able to open up in the last two periods to clinch the title.

Byron will play a non-conference engagement at Mt. Morris tonight.

Amboy's Rally Sinks Millies In 55-47 Tilt

Milledgeville —(Special)— Amboy rallied after a bad first quarter to down Milledgeville 55-47 in an exciting game.

Amboy trailed at one time in the first period by a 16-3 score. The home team lead at the half 24-21.

It marked the second time this season that Amboy has defeated the Milledgeville five.

Milledgeville's Hartje led all scorers with 24 points. Elmo Litts starred for the winners with 12 points. Doug Smith and Gene Carroll had 10 points each for Amboy. Eight of Carroll's came on free throws.

The Amboy reserves edged the home team 37-35.

HALF-CENTURY HIGHLIGHTS

THE LONE EAGLE of 1927 was Charles Augustus Lindbergh, an obscure airmail and barnstorming pilot who overnight became America's top hero The whole world waited breathless when Lindy took off from Roosevelt Field, N. Y., on that morning of May 20, 1927, and headed his plane, the "Spirit of St. Louis," toward Paris, fame and fortune. The drama of the handsome young flier tackling the broad Atlantic alone in a tiny monoplane captured the world's imagination. On the evening of May 21, word flashed to the world that he had landed near Paris, totally unprepared for the wild reception that greeted him there "We made it," said the quiet, modest flier whom other pilots called "Slim." "We" meant Lindy and the plane, which thereafter became a personality in its own right.

REBEL LEADER—Cap. Paul ("Turk") Westerling, above, a former reserve officer of the Royal Dutch Indian Army, is leading a rebel army of fanatic Moslems against the newly established United States of Indonesia. Westerling began his campaign to set up an Islamic state by marching on the west Java town of Bandung. Observers predict all-out war between the new Indonesia government and the rebels.

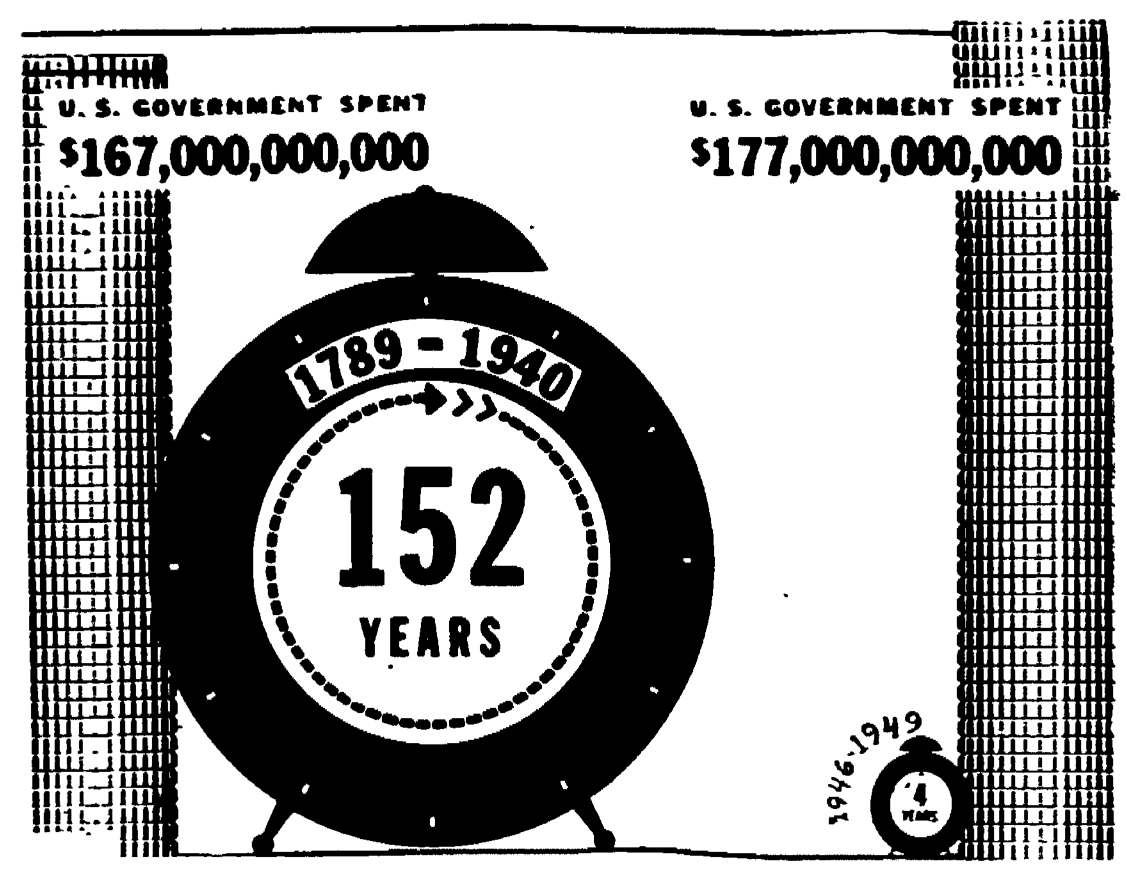
Taxes Feed 36,000,000 on Government Payrolls



By PAUL MARTIN

How big is government today, and what is the extent of its power?

Here are some indications:

Approximately 36-million Americans are drawing regular, direct payments from federal, state and local governments.

One out of every eight employed persons in the United States is working directly for the government—or 7.6 million federal, state and local employes.

Total federal, state and local spending will run close to $70,-billion in the current 1950 fiscal year. This means around $30-billion in farm or business channels, around $40-billion to individuals.

The total federal spending in pre-war 1940 was $10-billion, and even then the nation was girding for an emergency. In the 1930s, the first $4-billion a year budget was considered a back-breaker.

The total 1950 budget has been estimated at $47.9 billion in total appropriations and authorizations.

The federal government has become the most dynamic factor in the entire American economy. It dominates business, agriculture and foreign commerce. It exercises a powerful influence over what state and municipal governments are able to do

If federal loans, guaranties and subsidies were withdrawn immediately, the national economy would suffer extreme shock.

Where do your tax dollars go? Who are you helping to support? How much is the federal government spending today?

Here is the third in a series of articles designed to give a comprehensive picture for the first time of how the colossus of government reaches out into every state and every walk of life.

Around 33 per cent of what the average citizen earns today goes into a combination of federal, state and local taxes—many of them hidden taxes.

To keep the federal government going we are spending annually around 6 billion for new material, supplies and equipment.

The administration since VJ-day has or will export around 32 billions to keep Communism out of Europe, and restore the economic balance of the western world

The Federal government has accumulated an inventory of more than 30 billions in military or civilian supplies This includes more than 2 billions invested in rolling stock alone, trucks, automobiles, staff cars, etc.

Uncle Sam pays more than a billion dollars every year for transporting public property, mostly over the railroads

There is a shelf of planned public works in excess of 100 billions, which might be put under construction in event of a depression.

For all contemplated multiple-use water projects, an expenditure of 30 billions would be required. These activities keep 100,000 on the federal payroll alone, plus additional thousands under private contractors.

Agricultural activities of the government have mushroomed from 22,000 to around 100,000 employes in the last 20 years. There are nine separate agencies providing government credit to farmers on different terms and for different purposes.

Veterans administration will spend around 6 billions this year to aid directly more than 5-million individual veterans, exclusive of the GI insurance dividend.

The Hoover Commission found VA was publishing 88 different technical manuals, 665 different technical bulletins, and over 400 circulars of various kinds.

* * *

WHERE DOES the money go? The Budget Bureau says 81 cents out of your tax dollar this year will go to support four big areas of federal interest—defense, international affairs, veterans and debt service

In 1939 the Federal government spent $83 for every man, woman and child in America. This year the government will spend upwards of $287 for every single individual and there are around 17-million more of us.

Here's where the money goes:

For	1939	1950
Defense	$8	$98
International	15c	$46
Veterans	$4	$38
Debt Service	$7	$37
All other	$49	$68

Total funds to be spent or obligated by the Federal government in the 1950 fiscal period will be distributed in approximately this fashion:

SALARIES—10 2 bilions for 3 7 million federal employes, including the military.

SERVICES — 2 4 billions for communications, transportation, rents, etc.

GOODS—10 billions including 2 5 billions for construction, 1.7 billions for aircraft.

BENEFITS—17 3 billions for subsidies, pensions and grants, including more than 2 billions for welfare and old age pensions, 1 6 billions for the unemployed.

FARMERS—Direct payments in excess of a half-billion, plus crop loans and purchases which may exhaust the near-5-billion borrowing capacity of commodity credit corporation.

FOREIGN GOVERNMENTS—5 6 billions to be spent mostly in U. S markets.

DEBT—5 5 billions for interest alone, nothing for debt retirement.

LOANS—2 billions to farmers, real estate operators, businessmen, veterans

WHERE ARE the federal employes located?

The greatest number, of course, are in the District of Columbia, or around 220,000 But the state of California alone has 205,000 federal workers, runs the district a close second

There are three states with more than 100,000 federal employes each—California, New York and Pennsylvania(Illinois, with 99,000, is close to the mark

The Moral Is: If You Can't Make Small Talk, Then Yelp!

By HAL BOYLE

New York—(AP)—Once upon a time there was a dog named Rover

And he felt he had a bone to pick with life. He was the loneliest dog anywhere.

The reason was simple. In a world of talking dogs Rover was a misfit. He couldn't say a word.

All his canine friends belonged to radio comedians, who have a monopoly on talking dogs What a life they led! All they had to do was toss off a few gags to their bosses, and take the rest of the day off

Wise Up, Rover

The comedians would then go on the air, and quote what the dogs said, and everybody would just die laughing

"Why don't you wise up, Rover?" the other dogs told him. "There's no future in being the strong silent type"

Well, Rover tried The only job he could get was night watchdog in a peppermint factory, so he had plenty of free time. Night after night he would squat in front of a mirror in the factory and practice his vowels and consonants. But all he ever said was:

"Uhrrrooph . . . uhroooph . . . uhrrooooph."

Finally Rover went to a psychiatrist. He took a pencil in his paws and wrote(yes, wrote—after all he wasn't illiterate) the following.

"I don't hate my father or mother I just want to work for a comedian and live a rich, full life. But I can't talk."

"Hmm," said the psychiatrist. "How odd. The patient before you was a comedian who wanted me to help him think up a new comedy routine"

So the psychiatrist called back the comedian and said:

"Look, why don't you hire Rover and become the only comedian in America who owns a non-talking dog?"

At first the comedian said, "Who ever heard of such a thing?" But then he thought it over and said, "Why, it's the idea of the century! Come on, Rover."

Went On Air

Well, they went on the air and Rover, the non-talking dog, became an international sensation. The comedian would ask, "Who was that lady I seen you with last night?" and Rover would answer, "Bow wow!"

It panicked the nation.

As Rover and his master grew wealthy and famous, the other comedians and their talking dogs lost out.

One night the hungry and envious talking dogs ambushed Rover as he left the radio station.

"What have you got to say for yourself?" they demanded.

"Bow wow," said Rover worriedly.

"Okay, wise guy—so you won't talk, eh?" snarled one of the pack. And he and the other unemployed dogs fell on Rover with their fangs.

There was only one thing for Rover to do—and he did it. He lifted his manicured muzzle and hollered in a strong clear tenor:

"Help! Police! Help I am beset by ruffians!"

Moral: If you can't make small talk—yelp.
